

Food Quality and Safety Policy

The guidance and efforts of all, led by the General Director of **QUALIRISO**, aim to achieve:

- **Customer Focus**

Provide customer satisfaction, exceeding their expectations.

Continuously invest in the research and development of new products to meet the demands of the market.

- **Product Requirements**

Continuously seek the most appropriate practices to ensure products that meet quality, food safety, authenticity, legal, regulatory, internal and customer requirements.

Process, package, offer and sell products that are not derived from or produced using GMOs or their derivatives and take all reasonable measures to avoid contamination by GMOs or their derivatives.

- **Partnership With Suppliers**

Require all suppliers to strictly comply with the legal and **QUALIRISO** requirements, seeking together to achieve the improvement of the products and/or the services provided.

- **Food Quality and Safety Management System**

Continuously ensure compliance with legal and standards requirements.

Trigger actions aimed to ensuring the continuous improvement of processes, through the analysis and treatment of the data generated by the management system.

- **Financial Sustainability**

Ensure viability and economic success, based on cost reduction and optimization of our processes.

- **Sustainability and Environmental Responsibility**

Assume an environmentally responsible dynamic attitude, especially in the context of the rational and sustainable use of raw materials/consumables, energy resources and natural resources.

- **Ethics and Social Responsibility**

Ensure ethical practices with suppliers, staff and customers.

Promote social responsibility actions with the surrounding society.

Ensure the motivation and involvement of all team members, as well as the development of their skills.

- **Food Safety Culture**

Promote internally, to all team members, a continuously improvement of culture of food security.
